## BUSINESS MEN'S ADMINISTRATION

THE political situation is rapidly assuming a wholesome aspect and it really begins to look as though the voters of Nye county would have a chance to cast their ballots for commissioners and an entire ticket that will insure the best results. The cry of economy has been heard for years, but there has never been any pretext of giving the taxpayers the slightest consideration. Events of the past year have done more to clinch sentiment, crystallized by the Bonanza. The greatest and most potent factor is the little reminder of gross extravagance and wastefulness that lies on the table of every householder. The presence of the levy of \$4.01 is all that is needed to suggest the absolute necessity for a change at the earliest possible moment. This rate is due to an era of shiftlessness enforced by neglect and inattention of voters who permitted matters to drift along without trying to devise a remedy.

Business men and every industrial enterprise suffer from this tolerance of a system that has degenerated into an abuse. The tax rate has grown prohibitory for new investments and in turn the consumer must foot the bill. Where the grocer and butcher have to pay enormous taxes they are compelled to add to normal prices in order to make both ends meet and therefore the men and women of the camp have to defray the cost of added expense. The Republican party, free from the vicious elements of fusion, has resolved to present a ticket that will combine advantages of the most appealing nature. Business men of a sterling type have consented to run for the several offices, and when the names are printed the people will see that they are trustworthy and responsible. Among the candidates whose names may be mentioned at this time is Horace Campbell, of the firm of Campbell & Kelly, owners of the Tonopah Foundry. Mr. Campbell announces himself for the short term on the Republican ticket, and there is no question of the nomination not being affirmed by the voters. The name is suggestive of success and business methods, for it has been identified with the greatest industrial success achieved in any part of the state. Mr. Campbell established the foundry in conjunction with his associate at a time when insolvency confronted the concern and against the advice of those who were qualified by experience to judge of the merits of the field for an iron manufacturing plant. Mr. Campbell brought success out of failure and today the name of the firm is so well known and the quality of the service is so well established that orders for machinery and supplies are constantly booked from distant outside points. The candidate is the right kind of a man to assume charge of the derelict county, which has suffered from conditions that could not exist elsewhere without creating an uprising of the voters. In voting for Horace Campbell taxpayers will have the satisfaction of knowing they have a man who is not a politician and whose business qualifications are such that he is eminently fitted for the work of housecleaning at the courthouse slated to begin on the first of January.

"Wilson Is Worrying" is a headline in the administration papers, which go on to tell of the revulsion of confidence due to the election in Maine. The president has declared that it would be undignified to take the stump, but his managers believe he will have to make a front to stem the rapidly rising tide of protest.

Democrats still are talking of their great victory in Maine. This suggests the cow's tail, where the growth is downward. A victory wherein the party loses six members of Congress must be some victory of the Russian order, where the best fighting is done in the line of retreat.

That was a net trick the yellow man put over the American man when he turned the tables on Wilson by explaining that he was only Mexicanizing Mongolia.

Wilson has proclaimed two relief days for the afflicted people of other nations. The best relief day the Bonanza wots of is the day when Hughes will take the oath of office.

With five pairs of twins born in the course of six weeks, Tonopah may aspire to the title of the Twin City of Nevada.

Seizure of an American ship in American waters calls for bringing the Wilson machine gun—a typewriter—into action.

## OFFERS OF SITES FOR ARMOR PLANTS

(By Associated Press.)

WASHINGTON, Sept. 14.—Offers of sites for the projected \$11,000,000 government armor plate plant were made to the Navy department by more than 100 localities.

No proposal for sale of private plants was presented, although representatives of the principal armor plate manufacturers were present. Naval officers said they regarded it unlikely that any plant would be offered for sale and expressed the opinion that the government would begin construction of its own establishment when a satisfactory site had been secured.

## DARK HORSE WINS GREAT WESTERN

(By Associated Press.)

MILWAUKEE, Sept. 14.—Jim Zoo, a bay gelding, of unknown breed, owned by J. McChristen, of Burlington, Wis., driven by Newell, upset all calculations on the 2:20 pace in the Great Western Circuit races at the Wisconsin state fair by winning the \$1000 purse from a field of eight starters. A sixth heat run against Laddie, by Thistle, was the deciding brush.

## GREAT DRIVE ON RABBIT TRENCHES AT CARTER'S

R. A. Ward, representing the government in the extermination of animals that prey on crops, made a demonstration last week on the ranch of Sam Carter, at Big Creek, in which he exterminated over 1400 jack rabbits in four days. Those engaged in this work have come to a uniform estimate that at least a fifth of the rabbits killed in such a campaign are never found, as they die hidden away in the brush. On this basis, close to 1800 were killed in the four days' work.—Reveille.
